

PEWOTAPE FEU | 0100 mm

Product number 100-10-TAPE-FEU

Plastic Vaseline tape for sealing and corrosion protection up to 70°C

Weight 1.1 kg

Plastic petrolatum tape for sealing and corrosion protection up to 70°C.

L = 10 m

T = 1.00 mm

FEU - Special Advantages:

- For operating temperatures from -40°C to +70°C.
- For design temperatures from -50°C to +80°C.
- High plasticity and flexibility.
- No surface preheating required.
- Easiest manual application.
- For operating temperatures from -40°C (-40°F) to +70°C (+158°F).
- For design temperatures from -50°C (-58°F) to +80°C (+176°F).
- High Plasticity and flexibility.
- No surface preheating required.
